KING'S JUBILEE TO BE CELEBRATED AT GRIMSBY

Service in Moore's Theatre At 10.30 A.M.—Parade of School Children, Band, Councils, I.O. D. E. To Trinity Hall In Afternoon—Address By Walter McKaye—Beacon Fire On Mountain In Evening.

The Silver Jubilee of His Majesty, King George, the Fifth, is to be fittingly celebrated in Grimsby on Monday, with school children given the prominence in the events of the day, which will be observed as a public holiday.

On Wednesday evening a committee comprising the L.O.D.E., the township council, the town council, service clubs and school officials met in the council chambers and arranged the following program:

Public Morning Service
A service will be conducted by the clergy of the town in Moore's Theatre at 10.30 o'clock, Daylight Saving Time.

Afternoon Programme
The school children of the district will assemble at the public school at one o'clock, Daylight Saving Time and parade will form up comprising members of the town and township councils, the L.O.D.E. the Grimsby Band and about 600 school children from Grimsby and district.

Parade Route
Livingston Avenue to Main St., Main St. to Depot St. to Trinity Hall. At Trinity Hall the program will include singing of the school children under the direction of G. L. Eaton, Director of Music in the schools of Grimsby and District with T. L. Dymond at the piano.

The program will be as follows:
O Canada.
Opening remarks by Mayor McPherson.

The Maple Leaf.
Address—Walter McKaye.
Reading of County of Lincoln's Message to the King and members of the Royal Family.

Numbers by School choruses—"O Canada," "The King," by assembly.
Ball Game at the Public School Grounds at three o'clock.

Medallions will be presented to each school child, while others will be sold for 10 cents each, proceeds to go in aid of the town band fund.

Beacon Fire at Night
A Beacon Fire at 10.30, Daylight Saving Time, on the Mountain, will conclude the day's program. This will be in charge of the A. Y. P. A. of St. Andrew's Church.

There will be beacon fires along the mountain top all the way from Hamilton to Niagara on Monday evening, the proposal having been promoted by the Halfpenny Memorial Society of which Senator E. D. Smith, Wm. Wm., in the presence and Mr. Hugh Brennan, Stony Creek, the secretary.

MOTHERS' CLUB MEETING
The regular meeting of the Mothers' Club was held at the home of Mrs. Salmons, Thursday, April 18th, with twenty mothers present. Miss Lee gave a very interesting talk on the Training of Children, both in the Education and the Spiritual line.

She dwelt on the fact that mothers can so often undo at home what the teachers try so hard to do in the school, by using the wrong methods of teaching.

Mrs. Larson rendered a solo "The Old Rugged Cross", and the meeting closed with a dainty lunch served by the committee in charge.

The next meeting will be held at the home of Mrs. McCartney, with Mrs. McKaye, convener, Mrs. Johnston, Mrs. Millyard, Mrs. Mogg and Mrs. Johnson assisting.

County's Assessment To Be Discussed Month Earlier This Year

Reeve Mogg who is chairman of assessment in the Lincoln County Council, has announced that the County's assessment for the year 1935 will be discussed at the next session of the County Council on May 21st and that notice to the Reeves will be announcing the change.

The date is a month earlier than has been the practice in years past and according to Municipal Law, the assessment must be equalized before July 1st in any one year. Reeve Mogg is advancing the time for discussion, in the opinion it is much fairer and allows the Reeves of each municipality an opportunity of spending a little more time in considering such an important item as assessment.

BLOSSOM SUNDAY TO BE MAY 12

Cool Weather Retards Blossoms—With Few Warm Days Will Be In Full Bloom About Middle Of Next Week—Monday's Rain Highly Beneficial.

The sudden drop in the temperature which has continued for some days has had the effect of putting off Blossom Sunday for a week. With the present cool weather there is virtually no progress of the fruit blossoms. Present indications therefore point to Sunday, May 12th being Blossom Sunday instead of May 5th.

In a few days the whole countryside will be a mass of pink and white and the fruit belt will again be the Mecca for the motoring public. In some districts apricot and cherry blossoms are already out.

Many new orchards are also coming into bearing this season, which will add to the entrancing beauty of the Niagara Highway.

Fruit Pest Inspector T. R. Hunter, speaking of the progress of the blossoms, states that the peach blossoms are ready to burst and will provide a wonderful showing of blossom as will also the cherry blossoms. He believes that with a few warm days the blossoms will be at their best about the middle of next week, although he notes the fact that at Niagara the blossoms are out a few days earlier than in this district and there should be a good showing of them on Sunday next, if the weather becomes warmer. He also said that growers at Niagara were from three to six days ahead of this district in the picking of fruit.

Mr. Hunter states that the rain on Monday was very beneficial to crops generally, particularly in the case of wheat which appeared to be in poor shape. Had there not been rain or another week wheat would have been ruined, stated Mr. Hunter. The surface-feeding plants such as vegetables and grain, he added, were badly in need of moisture and the rain meant this district.

INCENDIARISM SUSPECTED IN CASE OF LOCAL FIRE

Fire broke out around two o'clock on Saturday morning in a building at No. 27 Fairview Ave., said to have been vacant for the past month. The flames were discovered by a passerby who sent in the alarm. The fire was quickly extinguished on the arrival of the firemen. On investigation it was found that someone had set a roaring fire in the furnace which had apparently resulted in igniting the woodwork. A fresh sandwich and a baked potato were found in the cellar.

In spite of this the doors and windows were securely fastened and firemen had in force the doors to gain entrance. An official stated that the outbreak looked like a case of incendiarism.

TOWN FINANCIAL STATEMENT IN THIS ISSUE

The Audited Financial Statement of the Town of Grimsby for the year 1934 will be found on pages two and three of this issue and will be of special interest to citizens.

EMPIRE'S CONGRATULATIONS

HIS MAJESTY, KING GEORGE THE FIFTH
Who observes Silver Jubilee on Monday—Succeeded to Throne On May 6th, 1910.

Survey of Life of King George

George The Fifth by the grace of God of Great Britain, Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, was born at Marlborough House, on the third of June, 1895, and succeeded to the Throne on the sixth of May, 1910, as the only surviving son of Edward VII.

His childhood was a happy one, shared with his elder brother, Prince Albert Victor, (afterwards Duke of Clarence) and two sisters. An early account describes him as "full of fun and not too fond of lessons." These lessons first assumed any real importance when he was six and a half and they continued steadily and quietly until he was twelve. The two brothers then became naval cadets on the Britannia at Spithead.

It had been decided quite early that Prince George should have a naval career. Apart from the invaluable training that the Royal Navy affords alike in respect for authority and the exercise of authority, it was felt that the Prince, being out of the immediate succession to the Throne, should enjoy the privilege of a worthy and full-time occupation.

That is how it came about that although both brothers passed from the Britannia to the Bacchante, they eventually separated. The Duke of Clarence went to Cambridge and at

towards into the Army; Prince George remained in the Navy.

The Bacchante made a voyage to the West Indies, in the course of which the two Princes were rated midshipmen, and Prince George confirmed his reputation of being "full of fun" and was the wholehearted participant, if not instigator, of any amusing prank that offered.

In 1900 Prince George began the series of extended journeys that has caused him to be known, not only as "The Sailor King," but one of the most travelled of rulers. With his brother he visited South America, South Africa, Australia, the Fiji Islands, Java, Ceylon, Egypt, Palestine and Greece. A chronicle of the voyage was compiled from the Princes' letters, diaries and note-books, and called "The Cruise of H.M.S. Bacchante."

Two years later Prince George was appointed to H.M.S. Canada, of the North American and West Indian Station, and promoted Sub-Lieutenant. Returning home, he passed through the Royal Naval College at Greenwich and the Gunner and Torpedo Schools. In 1905 he was promoted Lieutenant and in the following year joined H. M. S. Thunderer, of the Mediterranean Squadron. After service in H.M.S. Dreadnought and H.M.S. Alexandra, he joined (in 1909) H.M.S. Northampton. (Continued on Page 5.)

A. J. HAINES AGAIN HEADS COUNTY LIBERAL ASSN.

Grimsby Goes On Daylight Saving Time Saturday At Midnight

The town of Grimsby will observe Daylight Saving Time again this year commencing at 12.01 a.m. on Sunday, May 5th and continuing until 12.01 a.m. on September 18th. It will be necessary for citizens when they retire on Saturday evening next to move their clocks forward one hour in order to conform with the proclamation of Mayor McPherson as to the observance here of the new time.

Hamilton will also observe Daylight Saving Time during the same period, but the cities of Toronto, St. Catharines and Niagara Falls have been on the new time for about a week, and this has made it inconvenient for those having occasion to visit these places as they have had to allow for the hour difference in the time.

Beamsville has been observing Daylight Saving Time since April 29th.

Native Wine Tax Effective June 1 To Collect 5 Per Cent.

Effective on June 1, the Ontario government will collect a tax of 5 per cent. on gross sales of all wineries operating in the province.

This was agreed upon last week in conference between the 36 wine manufacturers and Chairman E. G. Odette, of the Liquor Control Board.

Sizes of bottles or containers in which Ontario-produced wines are sold will be standardized on the same date.

The authority for taxing wines was granted in amendments to the Liquor Control act which were passed at the recent session of the legislature. Each wine manufacturer is allowed one retail outlet. Some of these are located on the premises; some are established in either or other retail areas. It is the attitude of the Liquor Control board that these stores, wherever situated, are competitors to some degree with the government, or L.C.B. stores and, as such, should be taxed.

YOUNG PEOPLE'S RALLY AT NIAGARA FALLS

A young people's rally, under the auspices of "The Young People's Hour," a weekly feature over C.F.R.B., St. Catharines will be held in the Niagara Falls Arena on Monday, May 6th. It will begin with a prayer service at the arena at 10 a.m. while in the afternoon from 2.00 to 2.30 p.m. a song service will be held. The afternoon speaker will be Rev. Albert Hughes of Toronto. There will be a song service in the evening from 7.30 to 8 p.m., when the speakers will be Rev. Clinton H. Churchill and Rev. Walter W. Kenney with Geo. Goring, chorister and B. D. Ackley, pianist, all of Churchill Tabernacle, Buffalo. Special vocal and instrumental music at both services with choir of 200 voices. A banquet will be held from five to seven o'clock.

The sponsor and organizer of the rally is Arthur Mercer and assistant, Chas. Tourney.

GRIMSBY YOUNG LADY WINS MORE PRIZES WITH HER PET CHOW CHOW

Miss Audrey Palmer, 10 year old daughter of Mr. and Mrs. A. C. Palmer of Grimsby has been most successful with her entries of her year old female Chow Chow, "Black Beauty of Ku".

On Good Friday she entered her pet in the Spring Show of the Toronto Kennel Club and was the proud holder of a special and two seconds, being awarded a handsome collar and lead, donated by Mr. Thompson of the T. Eaton Co. Limited.

Again in Hamilton on Saturday last, Audrey's pet was awarded a special, a winner, four ribbons and two firsts. She was made the recipient of a pair of silver candlesticks. Altogether this Chow Chow has been awarded nine ribbons.

It is Audrey's intention to breed the Chow Chow, their home to be known as the Belvedere Kennel.

HAD NO LICENSE, IS FINED

As the result of a police raid several weeks ago, Mrs. Florence Jeckell, hostess at "Cherry Blossom Lodge," a dance hall on lake front, Beamsville, was found guilty in police court in St. Catharines of operating without a license, was fined \$17.75.

Re-Elected At Annual Meeting—Sec'y. Fleming Also Returned—Both Opposed—Zone Vice-Presidents Named—Entire Confidence Expressed in Premier Hepburn And F. H. Avery, M. L. A.

Confidence in Premier Mitchell F. Hepburn and in the member for Lincoln, Fred H. Avery of St. Catharines, was enthusiastically demonstrated in resolutions passed at the annual meeting of the Lincoln Provincial Liberal Association held at Beamsville, Monday night.

The old officers were returned but not without opposition. Col. W. H. Slinger of Niagara, was the opponent of President Archie Haines of Jordan, but the latter was again elected as was also Stewart Fleming of St. Catharines, who was returned as secretary, Nickle Davis of Smithville.

Zone vice-presidents were elected as follows: for Niagara-on-the-Lake, Niagara township and Merriton, John J. McInnis, of Merriton; Clinton, Beamsville, North Grimsby and Grimsby, Frank Groves, Beamsville; Grantham, Louth and Port Dalhousie, Arthur Cruise, Port Dalhousie; St. Catharines, Fred Beatty, St. Catharines; Chatham, South Grimsby and Chatham, Dr. Lymburner, Smithville.

"There never was a prime minister in the house like Mitchell Hepburn," said Frederick H. Avery, M. L. A. for Lincoln.

"He is like a rapid-fire gun. There were 187 questions tabled in the house and he answered them so quickly that he surprised the opposition out of any resort. I hope we are not going to resort to the policies of Col. W. H. Slinger, who wrote to a defeated member asking him for a full report of any rumors he heard, whether they were true or false," said the member.

Mr. Avery strongly stressed the urgent necessity of closing up the ranks and to forget petty differences on account of the nearness of the coming Dominion elections and to rally to the support of Mr. Coombs, the nominee. If there were jobs for everybody, I would be glad to see each of you get the one you wanted, but none was set built in a day.

Reference was made to eleventh-hour job-seeking Liberals causing dissension in the party, and Mr. Avery said: "We have more to fear from the traitors within the ranks of Liberals than we have from the Tories."

A disgruntled element in the association made a strong but unsuccessful effort to defeat A. J. Haines of Jordan for re-election as President, nominating Colonel Slinger of Niagara-on-the-Lake, for the office, Stewart Fleming, St. Catharines, re-elected as secretary, made a slashing attack on the troublemakers in the ranks stating: "My patience is about exhausted with a certain type of Liberal in this county. I have other things to do besides look after the wants of disgruntled agitators who are not doing this party a bit of good. I think the eleventh-hour Liberals who have become thorns in the flesh of Liberals should be extricated. The people who criticize the most are those who deserve the least."

A resolution was passed urging up on the Liquor Control Board that no reduction be made in the wholesale price of wines, as it was feared such a reduction would mean a reduction in price of grapes to growers. One speaker said that the Hepburn Government's action in raising the price of grapes last year had put between \$200,000 and \$250,000 in the hands of the grape growers, and that for this reason Lincoln County was not as hard hit as others.

J. Biggar Is New Sales Representative of Terraplane Hudson Line

J. Biggar of Grimsby, Ont., has been appointed new sales representative in this area for the 1935 Terraplane-Hudson line, according to the announcement today of Ross Mackinnon, vice-president and general sales manager.

Two outstanding engineering advancements are introduced in the new Terraplane and Hudsons. The "Electric Hand," a pre-selective device for gear-shifting, relegates the old-fashioned gear-shift to the tool box and clears the front compartment. The steel roof, in conjunction with unit construction, gives for the first time (Continued on page 5.)

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

GOOD YEAR ALL V

Financial Report of the Town of Grimsby For the Year 1934

PROGRAM OF WORK AT BURLINGTON TO COST \$1,000

Approval of a program of work necessitating the expenditure of approximately \$1,000, was given at the regular council meeting on Thursday night. A petition from the owners on Elizabeth street, requesting the repaving and resurfacing of that street between Maria and James streets, was received. Councilman Dan Barrett, chairman of the works committee, stated that the Elizabeth street job would cost about \$1,000.

All the work will be done as a relief measure from the government grant which has not yet been expended.

SECURED RELIEF BY FALSE PRETENCES—GETS JAIL SENTENCE

Pleading guilty to four charges of securing relief from the city of Hamilton by means of false pretences, Alex. Mahugh, 217 Main St. Hamilton, was sentenced to one month in jail on each count by Magistrate James McKay in magistrate's court Saturday morning. The sentence will run concurrently. In addition, Mahugh was fined \$30, \$24, \$22 and \$20 on the four charges, or two months in jail.

VINEMOUNT MAN HELD

Late Tuesday afternoon police placed under arrest, on a charge of criminal negligence, Ivan Leslie Bratt, Vinemount, Ont., driver of a truck which backed into and seriously injured 3-year-old Geraldine Wilkinson, 19 Westinghouse Avenue, Hamilton.

The mishap occurred just outside the child's home. Mr. Bratt and his father had driven down the street to have lunch after delivering produce to the city. They started to back several feet on leaving. There was a scream, and, looking back, Mr. Bratt saw that he had struck the little girl, who had been crossing the street on a kiddie car. The child was lying on the pavement bleeding from a head injury. She was rushed to the General Hospital, where she was found to be suffering a fracture of the skull and internal injuries. Tuesday night her condition was described as poor.

After questioning the driver at Police Headquarters for some time, Detectives Ernest Barrett and Joseph Duffy decided to detain him on the negligence charge.

SPORTS ASSOCIATION

A Workers' Sports Association is in the process of formation, which will include all the unemployed organizations in the Niagara district, according to the officers of the United Workers' Association. A call will be issued this week for a conference of delegates at which a programme of varied sports events will be arranged, to take place over the summer months. There is a great need for some form of recreation that will appeal to that large percentage of citizens who under present circumstances are leading a rather drab existence, and this it is felt will supply a need that has been long overlooked.

ACCIDENT ON NO. 20 HIGHWAY NEAR SMITHVILLE

A tire blowout was the cause of a serious accident on No. 20 highway, three miles west of Smithville on Sunday afternoon, in which six persons were badly shaken up, four of them suffering lacerations. The car, owned and driven by Reginald Smith, R. R. No. 1, Copeston, who has been working at Chippewa for the last few weeks, was travelling west when the rear tire blew out. Marks on the highway led to the belief that the driver had applied his brakes. The car careened across the highway, turning completely around. It crashed into and broke off a telephone pole, putting about a dozen phones out of commission, then overturned in the ditch. The occupants were taken out through the top of the car. Most of the glass in the vehicle was broken and the outfit generally wrecked. Dr. J. H. Leeds, of Smithville, attended the injured persons. Smith gave his name, but refused to give the names of any of the other occupants. It was later learned that his wife and two children and a man and woman friend of the family were the other people. Smith sustained lacerations to hand, the other man, a cut nose; a young woman suffered lacerations to face and right temple; a baby, probably the most seriously hurt, had lacerations to face and its mouth cut inside. Mrs. Smith and a young girl escaped with a shaking up and shock.

BOYD AND SHEPARD, AUDITORS.

PER, G. E. BOLTON.

MAY ENLARGE RESERVOIR AT BEAMSVILLE

Frank Weir, County Superintendent, was here last week and accompanied Messrs E. J. Osborne, Councillors J. R. Kennedy and R. A. Saunders and Dr. J. B. St. Leonard, M.O.H., in the reservoir site. It was looked over with a view to building the walls three feet higher as a relief measure, to increase the town's supply of water by about a million or more gallons. Mr. Weir will make a report on his findings. The council has become very interested in the suggestion made by the board of health, and are securing all details of a plan when they may set before them. David Croll, minister of public welfare, to try to get back for some public improvement the taxes paid by this corporation for provincial relief outlays.

Hamilton will again be out of step in regard to daylight saving time this year. The Hamilton officials have set the date for observance of summer time as from May 4th to September 16th. The dates recommended by the Railway Assn., which meet with approval by the majorities of cities on that time, are April 28th to September 29th.

Do you zip away first when signs say "GO"?

—of course you do!

Your modern car is lively, throbbing with power! At a touch of the "gas" it leaps ahead!

But what does that do to tires? These split-second starts, grinding stops and sustained high speeds punish tires as never before.

Tire manufacturers were challenged by failing mileage to produce a new tire that would meet these conditions. G3 was Goodyear's answer and already so many have been sold that on a safe estimated annual mileage Canadians have already driven G3 more than a billion miles.

G3 is new—but the experimenting is all over. It's a proven tire. Ask a Goodyear dealer to show you your size. He will fit your car with G3's at a price no higher than that of standard tires.

A lecture on Oral Health, illustrated with lantern slides to which both students and the public are invited, will be given in the high school auditorium on Friday afternoon at 3.30 o'clock, under the auspices of the Department of Health of Ontario.

The stop light at the corner of Main and Depot streets is again in operation, being turned on May 1st.

A special meeting of the Grimsby town council will be held on Thursday evening.

The High and Public Schools reopened on Monday following the Easter vacation.

Mr. W. W. Turner is acting as temporary night constable at present in the absence of Constable Wentworth through illness.

Mr. William Tennant has disposed of his farm on the mountain and the family have moved to Grimsby where they will reside on Oak St.

Groups of young lads have already been swimming in the lake here, despite the fact that the water has barely warmed up this season.

A chimney fire gave the fire department a run to the Adams' home on Korman Ave., on Tuesday about noon. The fire was quickly extinguished on the arrival of the department.

Rev. I. B. Kaine, minister of St. John's Presbyterian Church, spent a few days this week in Oram Sound, where he attended a meeting of the Presbytery.

The Service of Thanksgiving for Protection afforded to the King's Majesty during twenty-five years, will be held in St. Andrew's on Sunday evening next.

The Audited Financial Statement of the Town of Grimsby for the year 1934 will be found on pages two and three of this issue and will be of special interest to citizens.

Figures furnished by officials of the Grimsby Water Works show the April pumping to have totalled 6,448,000 gallons with an average per day of 214,960 gallons. The biggest day's pumping recorded was on April 3rd with an output of 284,000 gallons.

A young lad by the name of Mino was nearly drowned at the lake on Sunday where he and other lads were fishing. He slipped off the log crib unnoticed by his companions until a man on shore noticed his plight. He was able to keep his head above water until aided to safety.

Members of the local A.Y.F.A. attended the annual gathering of the organization for the counties of Lincoln and Welland held last Wednesday in Niagara Falls. Following a banquet an enjoyable dance was held in the Prince-of-Wales dance hall.

The regular bridge of the D.E. will be cancelled on Monday, May 6th, owing to the Silver Jubilee celebration in town. An open bridge will be held on Friday, May 10th, at 2.30 at the home of Mrs. W. Piser, Main St. E. and Baker's Side Road.

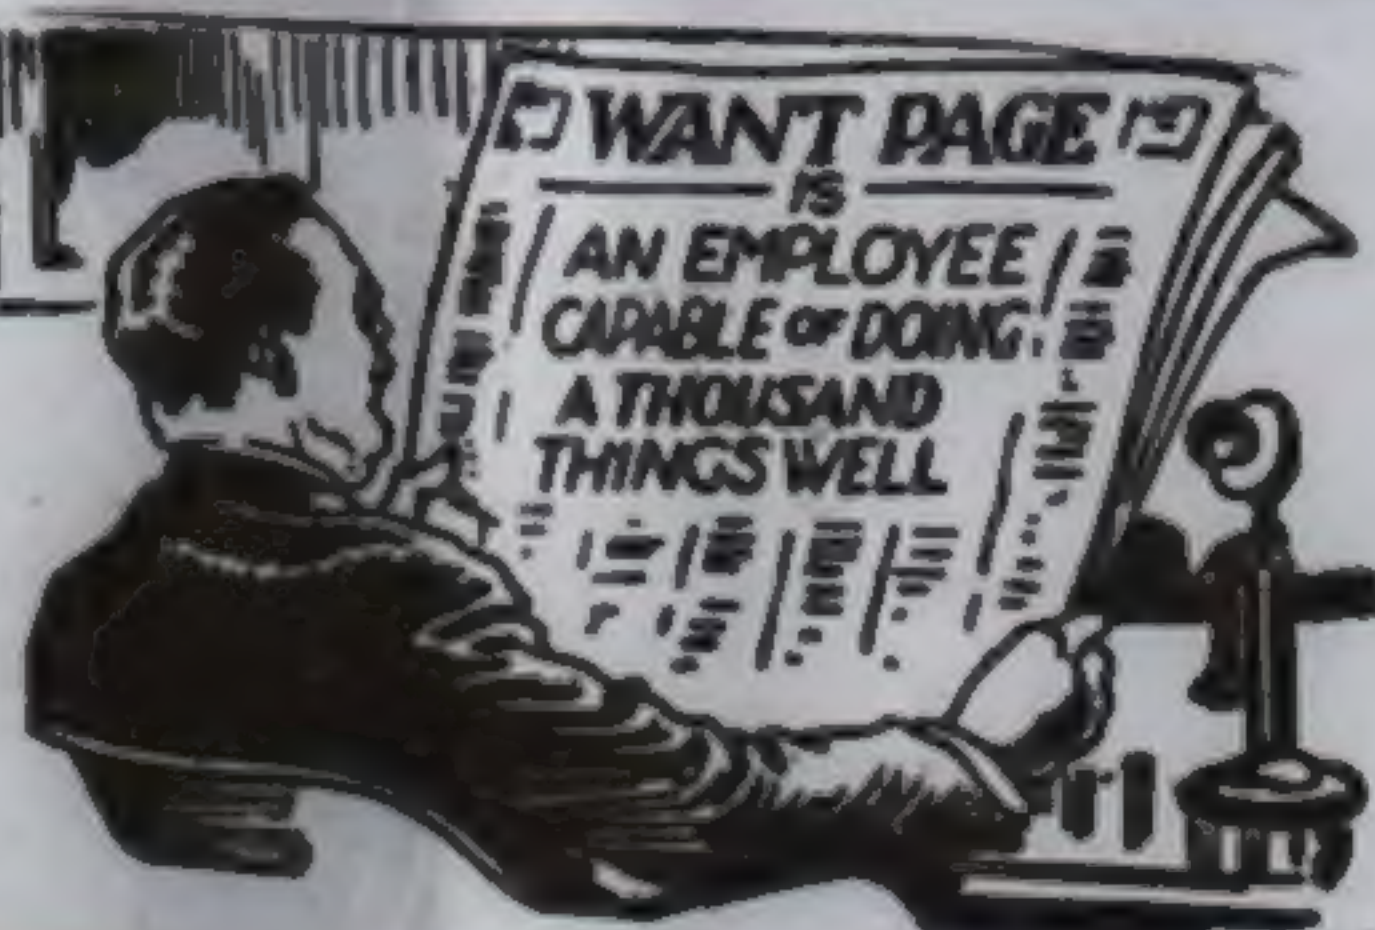

About twenty-five families are now residing in the park and the number is constantly increasing. George Fair, park superintendent, and his staff are busily engaged in clearing up the grounds and planting trees. The bowling green presents a fine appearance. Fishing from the pier is again popular, quite a number of perch being secured.

Marvin Wentworth, Captain and Defenceman of the Montreal Maroons, world champions, and who was considered to be the most outstanding player in the recent Stanley Cup Play Downs, was the speaker at the luncheon of the Kiwanis Club in Hamilton on Tuesday when he gave a most interesting address on hockey, in which he is so well versed.

Mr. Harold Whitteide of the Graham Nurseries, gave an illuminating address on the subject of "Trees" at the meeting of the Young People's Society of Trinity United Church on Monday evening when a large number was present. Added interest was lent to the occasion by the showing of over a score of lantern slides illustrating the subject.

The Senior Auxiliary, W. M. A., of Trinity United Church will hold their Easter Thank Offering in Trinity Hall on the evening of Wednesday, May 8th at 8 o'clock. The guest speaker will be Miss Evelyn, Mitch, field secretary of the Dominion League, W. M. A. Miss Mitchell is a pleasing speaker and as her words taken here in all parts of Canada her address should be of much interest. The evening will close with a social ball home.

CROWLAND MEN RETURN TO WORK

Premier Hepburn Takes Firm Stand — Strike Leaders Are Arrested.

Apparently concerned over the stand taken by Premier Mitchell F. Hepburn against their ultimatum, Crowland unemployed continued working on Tuesday at the Beatrice street sewer project, about 30 men reporting at the job. Twelve provincial police officers patrolled the area.

Premier Hepburn refused to consider demands of the unemployed until they "remove the chips from their shoulders." Because the strikers said they would work a week and then stage a bigger and better strike if not satisfied with action taken by the government in the case, the Prime Minister has moved for a show-down, and announced here recently "If it was a struggle the unemployed desired they would get it to the bitter end."

Tom Martin, unemployed leader, said the committee would take their time in considering the situation in view of the "important developments". Pending the reworking of bail, Frank Hanham, Adolph Gagan, William Douglas and Robert Longhead are still held in Welland county jail.

John H. Flett, counsel acting for the accused, stated Crown Attorney T. D. Crysler, K. C., appeared adverse to granting bail. However, representa-

MANY EVIDENCES OF RETURNING PROSPERITY IN ST. CATHARINES

There are many evidences in St. Catharines of returning prosperity. Beside the fact that the merchants in all lines had a better Easter business than for five years, some of the factories are very busy getting out orders. The textile mills are especially active and some are working night and day. The silk industry here is booming, and woolen concerns are stacked up with orders.

OBITUARY

Benjamin Pielt

A lifelong resident of Saltfleet, North Grimsby and South Grimsby townships, passed away following a lingering illness, in the person of Benjamin Pielt on Friday morning at the home of his brother, Isaiah Pielt, North Grimsby township. The late Mr. Pielt was in his 82nd year and had been well known as a thrasher and implement dealer, but for the last 20 years had lived retired. Deceased was a member of the Masonic Order and in politics was a Liberal.

Surviving him are two brothers, John of Calabar and Isaiah of North Grimsby and three grandchildren. He was predeceased by two wives and one daughter.

The funeral was held Sunday afternoon from the Stonehouse funeral home, Rev. H. Merritt in charge. Interment was made in Queen's Lawn Cemetery.

The pallbearers were Messrs. John Lawson, John Hilt, William Pearson, Stanley Canning, George Spencer and Corman Cough.

Mrs. F. Conegys

A highly regarded citizen of Grimsby was called by death in the person of Mrs. Florence S. Conegys at the Grimsby Nursing Home on Monday, April 29th. The deceased lady had been in Hamilton hospital for a time but had returned home and had been in the Nursing Home for a little over a week before her death. She was in her 66th year.

She was born at Boyle, Ontario, on December 27, 1870 and later lived in Philadelphia where her husband predeceased her 4 years ago.

The late Mrs. Conegys was a member of St. Andrew's Anglican Church and was actively associated with the Women's Auxiliary and the Guild. She was also a member of the L.O.D. E., being one of the most valued members of Lincoln Loyalist Chapter of Grimsby. Left to mourn her passing are two brothers, Walter Miesner of Fenwick and Miss Miesner of Wainport.

The funeral was held from the home of her niece, Mrs. R. A. McEl, 130, Main West on Wednesday afternoon at 2 o'clock, with Rev. J. A. Ballard officiating. Interment was made at Ridgeville, Ontario. The pallbearers were: Messrs. William Smith, R. O. Smith, A. R. Bourne, G. G. Bourne, William Geddes and W. H. Parsons.

William Henry Hildreth

Born in Saltfleet 65 years ago, William Henry Hildreth, husband of Carrie Lymburner, died at his home in Tapscott on Saturday, April 27th, after a brief illness. Mr. Hildreth had lived in the community practically all his life. He was road foreman for 15 years at Tapscott and superintendent of the Tapscott United church for the last 25 years. Surviving, besides his wife, are three daughters, Mrs. Cecil Tweedie, Tweedie; Mrs. Franklin Tweedie, Stoney Creek; Miss Mary Hildreth, Hamilton; one step-daughter, Mrs. Nicholas Shafley of Wainfleet, and eight grandchildren; five brothers, Charles, in Stoney Creek; John, Grimsby; Hiram, Hamilton; Frank, Grimsby; and Elmer, Tweedie; two sisters, Mrs. William Davis, Smithville, and Mrs. Dave Gunning, Dunville. A private service was held at his home in Tapscott on Tuesday at 2 o'clock, thence to Tapscott United church for public service at 2.30. Burial was made in Tapscott cemetery.

Mrs. John Chadwick

A long member were in attendance at the funeral of the late Mrs. Chadwick, which was held on Thursday afternoon last from the Stonehouse Funeral Home. Rev. I. R. Kaine of St. John's Presbyterian church officiated. The pallbearers were: Messrs. Bert Pielt, Charles Palmer, William Baisley, Reg. Dalgleish, Charles Wilson and George Wilson. Interment was made in Queen's Lawn Cemetery.

Mrs. C. Fisher

Mrs. Charlotte Fisher, of Jordan Station died at her home on Saturday, in her 75th year. The funeral was held on Tuesday afternoon, with Rev. C. R. Albright of Jordan Station United church officiating. Interment was made in Oak Lawn cemetery, Jordan Station.

Mrs. James M. Durnham

Mary Elizabeth Ross, widow of James M. Durnham, who died in April, 1930, passed away Saturday, April 27, at her home in Clinton township, in her 75th year. She was a prominent resident of the township. Mrs. Durnham suffered a fractured hip some time ago, and failed to rally completely from this injury. She was a resident of the vicinity for a number of years, and attended the Presbyterian church in Grimsby. Surviving are three children: a son, Earl, at home, and two daughters, Mrs. Fred Clifford and Mrs. Alton Farber, both of Clinton

Social and Personal

Mr. Douglas Wood of Toronto called on friends in Grimsby on Sunday.

Mrs. K. Webb of Lucknow is visiting her aunt, Mrs. Margaret Fisher, Gibson Ave.

Mrs. O. Shaw has returned after spending several days at her parents' home at Beausville.

Friends will be sorry to learn of the illness of Miss Margaret Phipps and will wish her a speedy recovery.

Mr. and Mrs. Jack Coomber of Hamilton, spent Sunday at the home of the former's parents, Mr. and Mrs. G. Coomber, Elizabeth Street.

Mr. and Mrs. James Atchison have returned home after spending the winter months at their home in Avon Park, Florida.

Miss Anna Crane entertained a small party at The Blue Tea Pot, recently, in honour of Mrs. Coulter of Sterling, Ont.

Mrs. A. F. Williams who has been spending sometime in Toronto is now registered at the Village Inn for three weeks prior to leaving for Charlotte, P.E.I.

Mrs. A. E. McCartney and Miss Margaret McCartney have returned after spending a short time visiting in Toronto.

Miss Margaret Allan was hostess Tuesday evening at a Kitchen Shower in honor of Miss Sadie Phipps and Mr. K. Nelson, whose marriage takes place the latter part of May. The young couple were the recipients of many useful articles.

The funeral took place from the family residence on Monday, with service at 2.30 o'clock. Burial was made in Queen's Lawn cemetery, Grimsby.

THOU SHALT NOT KILL!

Drive Carefully!

YOUR PROFITS LIE IN THE CHICKS YOU RAISE

EVERY chick you buy costs you money. Every time a chick dies, the money you paid for it is lost for good. How many chicks do you count on raising out of every 100—85? 90? 95?

We don't know what success all of our customers are having this year, but many of the reports so far show that the losses in Day Chicks are very small—and that the chicks are showing excellent growth as well.

Wilfred Kebas, Lloydtown, has raised 502 Bray Barred Rocks—his raised better than 97 out of every 100. At five weeks old, many of his chicks weigh 1 1/4 lbs.

Mrs. T. Stobart, Weston, has raised 502 Bray Barred Rocks out of 507—better than 99 chicks out of every 100!

Britt Riddell, King, lost only 3 out of 307 Bray Barred Rocks—his raised better than 99 chicks out of every 100 two—and at 13 1/2 weeks he has pullets weighing over 3 1/2 lbs.

Chicks that live and grow like these are bound to make you money. Buy chicks that have the vigor and stamina to live through the first few weeks of brooding and grow into big, profit-making birds. Buy Bray chicks.

Come in and talk chicks with us. Get a copy of our Free Chick booklet and consider it at home. Prices are particularly attractive for May and June delivery. You can save \$1.00 per hundred by placing your order with a 10% deposit 30 days in advance.

Announcing a New...

Hudson-Terraplane

Dealer for Grimsby

HUDSON

Terraplane

J. A. BIGGAR

107 Main St., West, Grimsby, Ont.

Here's Why He Chose Hudson

Quick to sense the trend of public favour, Mr. Biggar has decided to concentrate on selling Hudsons and Hudson-Terraplanes. For the 1935 Hudsons and Terraplanes, with the Electric Hand, are already the year's sensations!

The chief reasons for this decision are in the cars themselves. There's new styling in these 1935 Hudsons and Terraplanes. Longer, lower bodies, gracefully narrowed radiators. There's new durability and safety, too, with roofs of steel on bodies all of steel. There's more power—flashy acceleration—greater gas and oil economy. More of everything you want in an automobile.

And the Electric Hand

Exclusive to Hudson-built cars, provides magical new driving ease, comfort and safety.

Mr. Biggar chose the Hudson franchise the way you should choose the car you buy. He compared all the cars—feature for feature, with what Hudson and Terraplane had to offer. His decision was made on facts.

We welcome J. A. Biggar to the Hudson-Terraplane dealer organization.

DISTRIBUTORS

CARPENTER MOTORS LIMITED

HAMILTON, ONTARIO

It is a pleasure to handle automobiles in which we have the implicit confidence we place in Hudsons and Terraplanes and which have everything other cars offer, plus many desirable features found in them alone.

We pledge ourselves to devote the facilities of our entire organization to the courteous and careful service of all our customers.

It will be our policy to continue our efficient service to our old customers and extend our facilities to owners of Hudson, Terraplane and Essex Cars at our central location, Grimsby Sales and Service, 107 Main St. West.

We have had a thorough training in the repair and adjustment of Hudson-built cars.

J. A. BIGGAR.

Grimsby Youth Attended Coronation of King George in 1910 as Scouts

R. C. Calder, well known barrister, formerly of Grimsby, holds a unique position as the only resident of St. Catharines who as a Boy Scout in 1910 attended the Coronation of King George. Mr. Calder, then a resident of Grimsby, was a member of a party of four from Lincoln County who made the trip.

The Boy Scouts who comprised the Lincoln County representation to the coronation included: Ross Hobden, Beausville killed overseas; Fred Scott, Grimsby, killed at Vimy; Gordon Burland, Grimsby, now of Hamilton, Bermuda; and R. C. Calder, Grimsby now of St. Catharines. There were in all some sixty Scouts from Ont. who participated in the coronation ceremony.

To honor the visit of Lord Robert Baden-Powell to Toronto a reunion of the Scouts who attended the coronation will be held on May 11th. At this time there will be a reunion parade and dinner and the few remaining Scouts of Ontario who attended the coronation will meet the Scout leader.

ST. CATHARINES LABOR COUNCIL PROTESTS TO CROLL

St. Catharines Trades and Labour Council has sent a protest to Hon. David Croll regarding the proposed new program.

being turned down. The Trades council says this is unfair to the building workers here, who had been expecting plenty of work in the clearing of the city hall and police headquarters, and the building of a police comfort station. The city council pared down this programme from \$150,000 to \$32,000 and nobody here expected Mr. Croll would do other than reduce it. The city council will likely send another delegation to Toronto about it.

Prize Winning Sheep Are Killed By Dogs Owner Awarded \$218

A tale of wanton destruction by dogs of the fine pure-bred flock of Leicester sheep on the farm of Emerson Lowden was unfolded by Mr. Lowden before the Binbrook council, as he told how his flock of prize-winning ewes had all been killed or so badly wounded by sheep-killing dogs that they had to be destroyed.

One lone ewe out of the flock escaped, and being found the next day on a farm nearly a mile away, having crossed the Twenty creek in her endeavour to escape the terrible death of her mates. A neighbour saw the four killers at work, but before he could get within gunshot, they had decamped leaving Mr. Lowden's fine show sheep, that had captured many ribbons for him at the leading exhibitions, dead or dying on the field. Two hundred and eighteen dollars was the amount awarded him by the sheep valuator for his loss although he declared this will not compensate him, as he had ewes killed that for quality cannot be replaced.

Last year the township had an unfortunate experience with sheep killed by dogs and a census is being taken to determine the breeds that are being kept. Unless there is a let-up soon in the killing of sheep, sheep breeders are threatening to take the matter every dog coming on their premises. The council is also considering passing a by-law restraining dogs from running at large in the township.

PHEASANTS PLENTIFUL

Reports from all over the district, particularly below the mountain, are to the effect that pheasants were never so plentiful as they are this

J. A. BIGGAR IS NEW SALES REPRESENTATIVE OF HUDSON-TERRAPLANE LINE

(Continued from Page 1)

a complete all-round protection with steel. No wood is used for structural purposes, even the floor is a single steel plate.

Offering a wide range to the Canadian motorist in the lowest price field, the 1935 Terraplanes are the biggest and most powerful Hudson-built offerings to date. There are two series of Hudson Eight series, the Special and the De Luxe, on a 112-inch wheelbase and equipped with 88-horsepower motors. New in 1935 and offered in five models is the Hudson Six Six on 116-inch wheelbase with 93-horsepower motor. There are two series of Hudson Eights on 117-inch wheelbase with 113-horsepower motors. An innovation in the medium price field are the custom-built Hudsons, a custom club sedan and the custom brougham, built on a wheelbase of 124 inches with 113-horsepower motors or, with the optional high compressor head, 124-horsepower.

Longer and lower and fleet in appearance, the 1935 Terraplanes and Hudsons have roomier interiors than ever before, as evidenced in the increased width of seats and the greater leg-room. Improved mechanical refinements have resulted in even higher standards of performance and economy. The new rotary equalizing brake system is introduced and a change in the piston design increases

is afforded the motorist

spring. Many of the fruit growers believe that an open season for shooting them will have to be granted this fall, otherwise they will become a great nuisance as they were on Pelee Island last year, where many of the farmers trampled every nest they found in order to keep them in check.

THE REMARKABLE ROMANCE OF AN INDUSTRIAL
DICTATOR

Velvet and Steel

By
PEARL BELLAIRS

STORY

Jean Duvoy of humble origin, is introduced as a social equal of Miss la Fontaine, rather than as a millionaire, who forces his attention on her. Lord Edwards proposes to Jean.

CHAPTER III (Continued). A TITLE REJECTED

For one moment Jean hesitated. Perhaps the events of the last hour had made her feel that one was very helpless all on one's own in the world. She thought once again of everything that she could have done for her mother and the family—but then she recollected that had he known about their place in the social scheme he would not be asking her to marry him now!

"I'm sorry," she said. "I'm terribly sorry!"

"Why won't you?" asked Lord Edwards, crestfallen.

"I like you as a friend. But—Oh, why think about it? It would never do!"

"Don't you think it would? You mean you don't care for me enough? It must be that. Oh, Jean I couldn't care for anyone more than I care for you!"

"He was unhappy; and then he began to be surprised that she should refuse him, and rather resentful, because hitherto being Lord Edwards Bligh had got him most of the things he had wanted in the world. Jean, seeing that he was angry as well as unhappy, was relieved when a new hand was dealt at the bridge table and Lord Edwards was forced to go back and continue the game.

TO BE SURE YOU GET Fast Relief

An Aspirin tablet starts disintegrating as soon as it touches moisture. That means that Aspirin starts "taking hold" . . . even when a headache, neuritis or rheumatic pain almost instantly. And Aspirin is safe. Doctors prescribe it. For Aspirin does not harm the heart.

Be sure to look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is made in Canada and all druggists have it.

"My dear George, I realize all too well what I would gain! Lord Edwards! He's awfully nice. I know. But I don't want to marry a man with whom I'm not in love — Oh, George, I can't do it!"

"I suppose you're right," said Miss la Fontaine, but she sighed as she smilingly contemplated the glories that Jean had refused.

A maid appeared with the coffee and rolls, and Jean and Miss la Fontaine drank at the little gill table drawn up by Miss la Fontaine. Miss la Fontaine was silent for some minutes, thinking about Jean and that drive with Piers Hansen last night, and wondering.

"Did you enjoy the drive with Piers? Or did he frighten you, driving so fast?" she enquired casually.

"I didn't really want to go," Jean said. She wondered what George would say if she knew that she had ended by hitting Piers Hansen in the face. It really wasn't a thing which a young lady of supposedly county family should do! It savoured of Poplar! Jean blushed a little, and then said calmly:

"I'm afraid I've broken that face—the painted one."

"Have you? What a shame! How did you break it?"

"In Mr. Hansen's face."

"Jean!" Astonished, Miss la Fontaine sat upright in bed.

(To Be Continued.)

Marriage, Studies Said Not to Mix

Boston—Get a college education first, then get married (if you want to), but don't mix the two.

That is the advice of former Justice Robert J. Fosshee of the New Hampshire Supreme Court, now a lecturer at the Boston University School of Law on domestic relations.

"Students who marry while they are in college are handicapping their chances for happiness," Judge Fosshee said in an interview.

"Married life, in order to be successful, should be entered about a home and family, not around classes and study. Home life more than anything is important to a happy marriage."

Judge Fosshee maintained that the good effects of co-operation and mutual interest that come with marriage are lessened by the fact that students are likely to live in a boarding house or a similarly unfavorable environment.

WHAT DOES YOUR HANDWRITING REVEAL?

In certain of my articles I have endeavored to answer certain objections that some correspondents have raised regarding Graphology. As a result I have received quite a number of letters from readers expressing their agreement with my comments.

But one correspondent took issue with me, and all because of certain things I had told him about himself. Apparently I had told him that he thought too much about himself—that he was too self-satisfied.

He said that he was not at all like this—but he took him eight large pages to tell me what he did think about himself. There is nothing very much to answer to this gentleman, excepting to express the conviction that if he thought he needed eight large pages to give me his opinion of himself, then indeed my previous observations about him were correct; that, indeed, he did think too much of himself!

In the same mail there came a very broadminded letter from a man of forty years of age. He thanked me for analyzing his character, and went on to say: "Thank you for giving me the best laugh I've had in years—a laugh not at you, but at myself! When I wrote to you for a character analysis I did it with my tongue in my cheek, as it were. I didn't for a moment believe that you could tell me anything like the truth. But you have done just that. You told me that I was selfish and self-centred, and was very much inclined to study my own self-interest. Well that was a good one on me, because I am sufficiently broadminded to know that you have got me down as exactly as I am. I admire your courage in telling me the unpleasant

Russia and Rubber

PROGRESS OF SOVIET UNION IN ITS SEARCH FOR SUBSTITUTES

When the Soviet Union promulgated its first five-year plan the world heard much of Russia's attempts to solve the problem of rubber. Latex had always been imported. Henceforth, it was decided, the Union must either discover within its own borders plants that could something like rubber or develop its own processes for the synthetic production of the material.

The Union had found both. It has plantations covering 4,000 acres on which rubber-like plants grow, and it has factories in which rubber is made out of alcohol and acetylene.

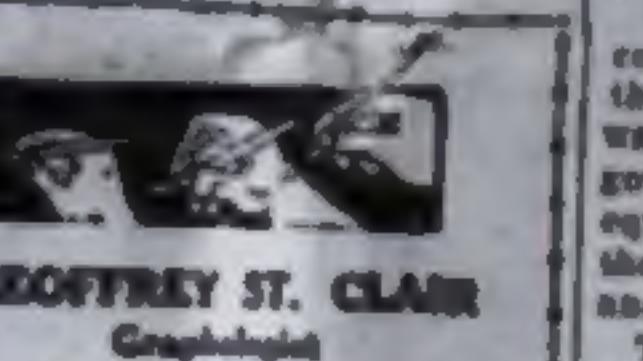

The plantations are to be visible evidence of a successful search for plants of the right species. Year after year European plants and Siberia were combed for roots, shrubs, trees and bushes that yielded what might be a tell-tale milk. At last, in 1928, was discovered in Central Asia. That was in 1928, Moscow lost no time in spreading the glad news throughout the world. Probably the discovery received as much publicity as Edison's effort to produce a rubber substitute from golden rod.

Two-leaf is a shrub. Its roots contain a gum coagulated in Shers, from 15 to 30 per cent. of the dried weight of the roots consists of this gum. A survey made in 1933 revealed that 13,000,000 two-leaf shrubs grow wild in Soviet territory. Twenty million more were cultivated on plantations a year ago.

Besides two-leaf there are two other gum-bearing plants. One, hebe, was found in Kazakhstan in 1931; the second, crimsag, in the Crimea a year later. Both are weeds much like dandelion; both flourish in the damp, salty earth of mountainous country.

The production of synthetic rubber follows American lines. Like other chemists through the world, those of the Soviet Union recognized at once the importance of chloroprene, discovered by Father Newland of Notre Dame and developed by Dr. Carothers of the Du Pont Laboratories. In America the rubber-like product derived from chloroprene is called neoprene; in Russia, cuprene.

Probably more synthetic rubber is utilized in Russia than in any other country. But the Soviet engineers and chemists are not pleased with most of the three made from their own shrubs. The last two, not with the raw material, but with the method of manufacture.

GEORGE ST. CLAIR
Graphologist

truth, although I had asked you to show me no mercy!"

Now, it isn't everyone who can be so broadminded about his faults—but there is a lesson in this letter, and that is the reason I have quoted it. There is no virtue in feeling oneself! Most people have faults of one kind or another—and it is the height of wisdom to wish to learn about them, so that they may be rectified. The great trouble with most of us is that we do not really know ourselves. It takes an unbiased outsider to tell the real truth—and Graphology, because of its scientific accuracy, will show the real truth about you.

Would you like to have your own character analyzed from your handwriting? This well-known Graphologist can help you as he has helped so many of our readers. And he may be able to help you to know your friends better. Send specimens of the handwriting you wish to be analyzed, stating birthdate in each case. Send the fee for each specimen, and enclose with a stamped addressed envelope, to: Geoffrey St. Clair, Room 421, 78 Adelaide Street West, Toronto, Ont. All letters will be treated confidentially and replies will be mailed as quickly as possible.

RELIEVE PERIODIC PAIN

If you suffer from periodic pain, try Lydia E. Pinkham's Tablets. In most cases they bring welcome relief. As Mrs. Caroline Newman says, "They are the pain."

Mrs. Raymond Chaput, Route 4, Tibbet, Ont. says, "I have found these tablets very helpful. They have helped me in many ways."

Your doctor should be able to help you, but don't wait until it is too late.

High Cost of Weddings Cut

The Chinese Government recently delivered a telling blow at the high cost of weddings, when 87 couples marched to the altar together and were married in a simple ceremony, with General Wu Tsh-cheng, Mayor of Shanghai, officiating.

Aimed at setting an example of economy to the nation in accordance with Generalissimo Chiang Kai-shek's "New Life" Movement, the ceremony was devoid of all the frills and extravagance characteristic of the traditional Chinese wedding.

To the honored strains of Mendelssohn's Wedding March, played by a Chinese brass band, the marriage candidates paraded down the crimson-carpeted aisle, while a crowd of 1,200 persons, largely relatives looked on.

The couples ascended the platform in groups of four, bowed three times before the statue of Sun Yat-sen, "Father of the Republic," bowed twice before each other and once to the Mayor.

They then received brilliantly decorated certificates which made them man and wife. Each marriage was completed in two minutes. The government charged each couple the equivalent of 17 for the ceremony, the price including the certificate and a gift to the bride.

This was in startling contrast to the customary Chinese wedding which sometimes throws the young couple into debt for life.

British Writers Are Criticized

New York — A Briton recently praised the "grace" of American novelists and said British readers are turning more and more to American novels for qualities of excellent entertainment.

Norman Collins, partner in a London publishing firm, said: "When I read an American novel I think of a good fight, with something happening all the time."

"In England they are mostly on benches and are not likely to start a fight."

"Or you can think of it as a nice center, with the author mentally pouring tea for himself en route, as against a steep climb, with a lot of horses falling, but action, excitement and gusto every minute."

"That is why American books are being read in England, rather than the writings of our frightfully clever young men, who are ashamed of their emotions and have successfully diverted themselves of intellectual curiosity."

Curious World

With its contents described as "a gentleman in reduced circumstances, an urn carried by a woman and containing the remains of her husband, who died during a visit to England, was recently admitted duty free at Melbourne."

By increasing the "day" for wheat plants with electric illumination it has been found possible in Australia to produce three crops a year. The experiments were only successful with Australian-bred wheats.

Driving his pickaxe into the floor of an old house at Valencia de Don Juan, Spain, a workman heard a strange sound. He found he had shattered an earthenware jar buried in the soil. It contained gold and coins valued at £18,000.

An unusual duty has developed upon the inhabitants of Tawridas, in European Turkey. Crows have wrought unprecedented havoc among crops of all kinds, and the authorities have mobilized every man between 18 and 50 to secure a "bag" of at least six crows, failing which he is liable to be fined.

Fifteen thousand people crowded the streets of Amarillo (Texas) to watch the celebrations of "Mother-in-Law Day" and to hear the Governor of the state denounce "the porosity of sons-in-law." There is no more misrepresented being than the mother-in-law," declared the Governor. "She has been the butt of jokes through the centuries, due mostly to ignorance and porosity of sons-in-law."

One of the strangest museums in the world has been opened at Brno, Czechoslovakia. It is a collection of articles used by readers as bookmarks. The exhibits include toothpicks, bootlaces, small coins, combs, cigarette packets, blades, monographs, suits, and devotional pictures.

The blood in human veins travels at an average speed of seven miles an hour. This means that it covers 165 miles in a day, and over 60,000 miles in a year.

A pedigree Jersey cow, Stanchum Patricia Lily, property of Mr. S. Lockwood, of Wilmington, York, has yielded 24,994 lb. of milk in 265 days, thus beating the previous world's record by 417 lb.

Thieves who broke into the house of Lady Juliet Duff at Wilton, near Salisbury, got away with a collection of "jewellery" which had been saved from Christmas crackers for distribution among poor children.

Figures for 1934 show that 37 per cent. of the ocean passenger traffic between Britain and places outside Europe was dealt with by Southampton. London was next with 21 per cent., and Liverpool third with 21 per cent.

Scottish thrift is illustrated in the latest reports of the Trustee Savings Bank, Glasgow depositors have £15,545,885 to their credit. Liverpool and Manchester deposits combined made a total of only £10,807,779. Edinburgh is second to Glasgow with £7,747,353, and Aberdeen's figure is £3,546,670.

A thirteen-year-old girl, Gladys Smithson, of Southwick, Sunderland, has shipped 15,000 times in just under two hours. Her previous effort of 14,500 ships in 103 minutes made her Northern Counties' and English champion; now she is world's champion.

Fame Is So Fickle
(Stratford Beacon-Herald)

There are two engines in for an overhauling at the Canadian National shops in Stratford. They stand side by side away down at the end of the line. One is of the 6,000-passenger mountain type, and it has been for four years on the run between Toronto and Hornepayne. Even with the wheels and cab and outside covering taken off it is an enormous looking affair, and gives the impression—which is probably correct—that a railway locomotive is pretty much all boiler. If this one were standing in line with others of its kind and size it would not attract much attention. It is a big fellow, but when a big fellow stands long with other big fellows he does not receive much notice.

Next is this 6,000 in the boiler of a Grand Trunk Mogul. Now there's a name for you to conjure with. Thirty-five years ago since it was built, and when construction was finished on that engine it was considered just about the last work in motive power. In other words it was the dandy of its day. It was considered large; it was just such a locomotive as any driver might be well pleased were it to be turned over to him.

But it does not seem to make so much of a hit today. The boiler is about 24 feet long, and the 6,000-type standing next to it has a boiler of 35 feet, so it is evident the Grand Trunk Mogul is not so great as it used to be. In recent times it has been running on branch lines off of the main line and all the big jobs, but style has changed and the fact that a Grand Trunk Mogul had come in for an overhauling created not a ripple of excitement. After all fame is such a fickle thing.

"Even if we have chaos in our conditions, we need not have chaos in our ideas."—G. K. Chesterton.

Starts To Collect On Old Incubator Idea

Business Week (New York). Billions of baby chicks have hatched, grown to springers and died for the American table since Dr. Samuel B. Smith, of Cleveland, began bringing suits against infringers on his incubator patent. That was 14 years ago. Collection season started this year when Dr. Smith and the Smith Incubator Co. recently obtained from the United States Supreme Court a decision upholding their claim to the patent which covers a method of hatching chickens in an incubator that circulates the air.

In the next three months, the hatching season, perhaps 500 million chicks will hatch in incubators using or infringing the Smith patent, and the legal task of the Smith Incubator Co. is now to collect royalties of from one cent to three cents on every chick which has not paid the toll.

Though theoretical estimates of the collectible amount run to figures resembling Dr. Townsend's, the practicalities are different. References in lower courts have set these royalties in a number of cases, not in others; bonds have been posted in some of the cases, other companies have gone out of business, and suits are yet to be brought in still other instances.

The Smith Incubator arranges the eggs at different levels and drives a current of warm air past them with a fan. All other incubators from the ancient Chinese and Egyptians apparently had relied on convection, and their operators had had to change the position of the eggs from time to time. Not only did Dr. Smith do away with all that but his arrangement of eggs in seven stages of incubation enabled the operator to take off a crop of chicks every three days. The incubator became a continuous mill.

Dr. Smith's company builds incubators from 20,000 egg capacity to 65,000 at one "setting." The doctor, who started out as a country physician, built his own hatchery at his old home in Attica to a capacity of one million eggs a filling—at that time, about 1922, largest in existence. The region around Attica and New Washington for a number of years was the centre of the American day-old chicks industry. Ohio still leads the states in the capacity of its chick hatcheries, but Iowa and Missouri are close and California is rapidly overtaking the others.

Since 1922, when Dr. Smith formed his company in Cleveland, he has sold \$24,000,000 worth of machines with an egg capacity of 150 millions at one filling. Clinton, Mo., has 87 of the Smith machines in the hands of operators, who produce between eight million and nine million chicks a year, a crop worth \$300,000 at present prices. Half the Clinton population is employed in the industry.

Since 1917 chicks have travelled by parcel post as well as express, sharing that distinction with the queen bee. They are shipped as soon as their feathers are dry, and will travel 72 hours without food other than what remains of the egg yolk within them. Most of them go in standard 100-chick cartons, and 95 per cent. arrive safely. Nearly 2,000 dealers with a total hatching capacity of 257,000,000 chicks annually applied for compliance certificates from the National Commercial & Breeder Hatchery Co-ordinating Committee, the code authority.

The little of Dr. Smith and the infringers began as soon as neighbors heard of his success. In nearly all the cases, the infringing companies had attempted by differing arrangements of eggs on the trays to circumvent the doctor's claim to an exclusive patent. Dr. Smith's basic patent was obtained in 1895 and expires in April this year so that his collection season will be a short one. The company has a number of other patents. In the 14 years of legal work it started 538 injunction suits.

March Customs Returns Lower

Ottawa—Department of National Revenue have issued figures showing customs and excise collections for last March of \$17,519,040, a decrease of \$400,902, compared with March, 1934. Collections. For the 12 months ended March 31, collections were placed at \$225,705,005, an increase of \$25,431,451 compared with collections for the previous 12 months.

Customs collections last month totalled \$6,632,316, a decrease of \$109,454. Excise taxes at \$7,678,478 were down \$621,519 while excise duties totalling \$3,208,246 showed an increase of \$515,922. Miscellaneous collections netted \$178,261, down \$24,560.

For the 12 months period custom duties were \$74,780,992, increased \$10,311,721. For the same 12 months excise collections were \$3,824,701 greater at \$107,544,613.

Can You Wear To-day's Dresses?

Here is a Proved Way of Keeping a Fashionable Figure

"Dresses, this year," says the fashion expert from Paris, "will be specially designed to accentuate the waist."

What does this mean to you? If you are one of those unucky women who have "let their figures go", it means that the new flattering styles are not for you. It means being content with out-of-date dresses—unless you decide to do something to restore the figure of your girlhood days.

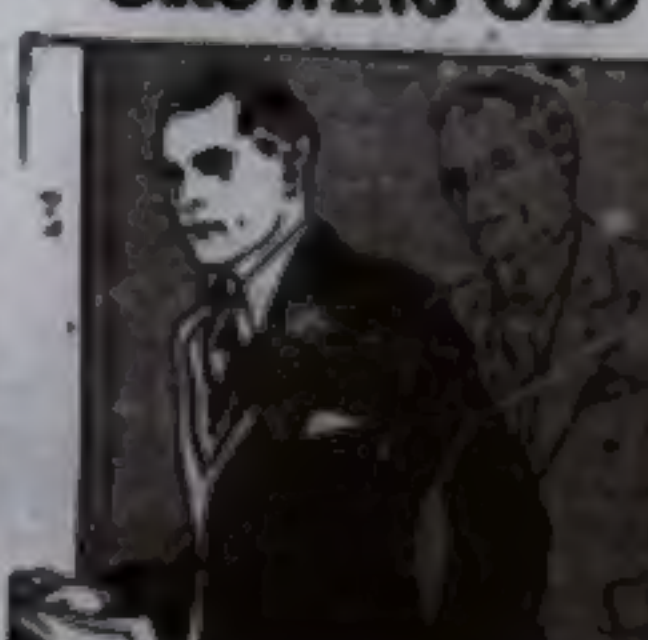

There is a thing to do—and it does not include a "starvation" diet. Just take faithfully every morning a half-teaspoonful of Kruschen Salts in a tumbler of hot water. You will soon find that you are gaining in energy and vitality—your skin will become clearer, eyes grow brighter—while at the same time you will be achieving that much-desired youthful, slender figure.

Girl Guide Meeting At Toronto In May

Toronto.—The Dominion annual meeting of the Canadian Council of the Girl Guide Association will be held in Toronto May 15 and 16, the association announced recently.

A banquet in honor of the world chief guide, Lady Baden-Powell, will close the annual meeting. Her Excellency the Countess of Lennox, wife of the Governor-General, will be present as honorary president of the council and will have a message for the guides in Canada.

GROWING OLD

It's frequently just an "idea," not "old age." And according to scientists, it may be something more alarming than a touch of acid stomach.

At about 40, many people think they're "growing old." They're tired a lot. Have heartburn. Stomach upsets. Distress. Nausea.

Well, scientists say the cause, in a great many cases, is merely an acid condition of the stomach. The thing to do is simply to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, all you do is take Phillips' Milk—Magneesia after meals and before going to bed.

Try this. You'll feel like another person! Take either the familiar liquid "PHILLIPS' Milk" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

Also in Tablet Form

Phillips' Milk of Magnesia Tablets are now sold at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of liquid.

YES, LUCKILY YOU HAVE THE FASHIONABLE FIGURE

CHARMING! AND IT FITS PERFECTLY

One lady (Mrs. D. S.) writes: "Only a few months ago I could not get a nice dress to fit, now I can wear a size 36. Many thanks to Kruschen. I've recommended it to all my friends."

Kruschen Salts is obtainable at all Drug Stores at 45c and 75c a bottle.

15 MILLIONS FOR RAIL EQUIPMENT

Ottawa—Guarantee of equipment securities of the Canadian National and Canadian Pacific Railways to the extent of \$15,000,000 is a feature of Dominion government legislation of which notice has been given, to create employment by public work and undertakings throughout Canada.

Inclusion of the railway equipment works in the government's re-employment legislation had been foreseen but it had been expected the amount would be double the figure named in the resolution. Extension of the public works program launched last year, and other works undertakings are to be included in the measure.

A resolution upon which the measure will be based appeared on the order paper of the House of Commons in the name of the prime minister. It may be moved by Acting Prime Minister Sir George Foster.

For nearly a year the government has been considering representations from the makers of railways equipment in Canada seeking federal guarantees to cover equipment orders for both systems. Some employment had been created in the Algoma and Sydney steel plants a year ago by the Dominion government guaranteeing the cost of rail orders until such time as the companies could deliver. The equipment orders suggested in earlier representations had been for around \$20,000,000.

Legislation to be based upon the report of the Commons Committee on Housing will not be included in the general re-employment measure, and will not come before the house until after the Easter adjournment.

It was announced that Hon. H. H. Stewart, minister of public works, would make a statement in the House regarding the works program, given.

Jubilee Medals From Royal Mint

Ottawa—Medals to commemorate the King's Jubilee have been received from the Royal Mint in London. It was announced recently by Hon. E. N. Rhodes. They will be sold by the Canadian Mint through Canadian retail stores.

FROM remote parts of China come mysterious stories of prisoners delivered of folk, a form of torture and death through customs and superstitions.

SCOUTING

Here • There Everywhere

A brother to every boy Scout, without regard to race or creed

Owing to the large number of Scouts and Girl Guides planning to attend the rally in Toronto on Saturday, May 11th to greet Lord and Lady Baden-Powell, it has been decided to stage the rally in two sections. The Guides will be given the early portion of the afternoon and the Scouts later. Both rallies will be held in the Coliseum.

The City of Saint John, N.B., is paying a special tribute to Lord and Lady Baden-Powell by fixing the date for the local celebration of the King's Silver Jubilee to cover the period of the visit to that city of the World Chief Scout and Chief Guide, May 31st. In addition to the Scout and Guide display the Scouts and Guides will take part in a great celebratory parade to be held around the theme of transportation from the earliest days of the city to the present.

The Scouts of Moose Jaw, Sask., are this month carrying out their usual spring planting of trees in the city parks.

In connection with Arbor Day, West Vancouver Scouts planted 200 shade trees in Ambleside Park, with the joint purpose of beautification, the commemorating of the visit of Lord and Lady Baden-Powell, and the raising of camp funds. Individuals and organizations were asked to sponsor trees. The project was given official approval by the attendance of the Scouts and members of the Council.

According to the annual report of the Royal Life Saving Society Montreal Boy Scouts during 1934 were granted 150 awards by the Society for knowledge of life saving. The awards consisted of 43 elementary certificates, 43 bronze medallions, 1 medallion bar, 19 first class instructor certificates, and 3 awards of merit, the second highest award granted. This total was nearly three times that of any other organization, and the first treatment. The main urge is—Do not fail to treat all your cattle.

WAR ON WARBLERS

All Agencies Co-operating To Eliminate This Destructive Pest

The Warble Fly and the resultant Warble Grub, constitute a real menace to every cattle owner in Ontario and it is most commendable to note the manner in which representatives of the Department of Agriculture in every County have marshalled their forces in a general "War on the Warble Pest."

It has become a distinctly local enterprise with everybody "Warbling" for the benefit of the cattle industry and at a decidedly low maximum cost to each individual cattle owner—the average cost per animal for the three necessary treatments is very little, if any, in excess of three cents. School Teachers and School Inspectors are involved in the drive with special lessons being taught in the schools; Councils are out campaigning and local Store-keepers in almost every town and village are co-operating in the same spirit by holding themselves in readiness to supply all the necessary ammunition in the form of a powder that is easily and readily mixed with water. Perhaps no Agricultural endeavour of recent years has caused so much intense interest and concern and the poor little Warble Fly is destined for complete eradication if this general campaign is conducted for another 2 or 3 years.

It is only human perhaps to procrastinate and some farmers have postponed treating their cattle in the hope that Warble Grubs might not appear this year or that it was useless to treat unless the neighbours did likewise. Such an attitude is the poorest kind of logic. Every farmer should treat his cattle since treatment means no roasting or galling, contorted cows, bitter milk flow, better feeding, and superior hides. And no farmer should let the success of last year's treatment deceive him as one year's treatment does not kill all the Warble grubs. True, it is nearly the middle of April but there is still time to give

the first treatment. The main urge is—Do not fail to treat all your cattle.

BULLS SPOIL SALE OF COWS

Farmers Also Line Up Against Police And Auctioneers

Reddish, Eng.—Two auctioneers came to Church Farm, Lancaster, to seize and sell cows because the owner, Frank Humphries, farmer, had declined to pay a \$50 Milk Board fine. The two auctioneers found 500 busy farmers in massed formation on the farm. They were armed with knobby sticks.

Startled by this display and further alarmed by the lusty bellowing and challenging, the auctioneers departed and returned with a police escort. Everything seemed in order for the auction—except the cows. Frightened by the uproar the herd stampeded, rushing madly around after the manner of a rodeo. The police were in hot pursuit when apparently from nowhere a pair of angry bulls appeared on the scene. The two auctioneers in despair called off the sale and retreated with the police escort.

Canadian Boy Scouts Are Invited To Poland

Ottawa.—An invitation to Canadian Boy Scouts to attend a two weeks jamboree by Polish Scouts this summer on the 25th anniversary of Scotland in that country has been received by the Governor-General as Chief Scout for Canada.

Dr. Michael Craynik, president of the Polish Boy Scouts Association, extending the invitation and expressed a hope that Canada might be represented by at least a small party of Boy Scouts. The jamboree will be held in the forest of Spiza near the hunting lodge of the president of the Polish republic. A gathering of 20,000 Scouts and leaders is expected to attend.

Malcolm Campbell To Edit Movie Sheet

NEW YORK.—Truman Talley, general manager of Motionpictures, Inc. announced recently the appointment of Sir Malcolm Campbell, British automobile speed record holder, as editor of British Motionpictures News, British affiliate of the Fox Motionpicture organization.

He succeeds to the position of Gerald Bauer, now named producer of the British awarded organization.

An unexpected twist given the 1st Cheshamville, Ont. Troop during a meeting was the announcement by the Scoutmaster that "Headquarters was on fire," and that the only exit, down the stairs, was blocked. It was up to the boys to get everyone out quickly and safely. The windows were thrown open, long ropes were brought from patrol corners, bowlines were made on the end of each, and within three minutes every Scout was safe on the ground.

In an exhibition hockey game the "redskins" of the Blackfoot Indian Scout Troop of the Old Sun School, Alberta, outplayed the "palefaces" of the 1st Rockyford Troop by six goals to four. The Indian lads were faster skaters, and played better combination.

The 64th Toronto (St. Peter's Roman Catholic) Troop provided ushers for a Sunday evening musicale held at the Royal York Hotel under the auspices of the Ladies' Auxiliary of St. Joseph's Hospital.

During the icy days of spring the Scouts of Arton, Ont. sprinkled the town's sidewalks with sand, to ensure safe walking for citizens.

The Scout choir of the 36th Ottawa (French-Canadian) Scout Troop under Scoutmaster J. Beaulieu, sang again this summer made a concert tour through Northern Ontario. The choristers comprise nine soprano, six alto, four tenors and three basses, and in musical circles has earned the reputation of being one of Canada's outstanding boy choirs. It has twice sung before His Excellency the Governor-General.

40 Millions For Military Purposes In Five Years

Ottawa.—In the five years from April 1, 1935, to April 1, 1940, the government spent \$40,000,000 on military purposes, says a return tabled recently in the House of Commons. In addition to that \$2,500,000 was spent on construction of military buildings.

In the same period \$21,345,000 was spent on the Royal Canadian Mounted Police, while \$295,154 was spent on buildings. This latter sum did not include \$1,537,000 for the headquarters building now in course of construction in Ottawa, nor the \$250,000 for the R.C.M.P. barracks at Edmonton.

Montreal Paper To Cease Publication

Montreal.—L'Ordre, French language daily morning paper of comment and criticism, founded by Olivier Asselin, noted French-Canadian writer and commentator, will suspend publication on May 11 next. The independent daily has been published continuously since March 19, 1934.

Critics of the paper's articles by Rodrigue Cardinal Villeneuve, Archbishop of Quebec, led to the decision of the directorate to cease publication.

Motor Car Sales Show Big Jump

Sault Ste. Marie, Ont.—Sales of new automobiles are three times as great here to date this year as during the same period in 1934 and six times more than two years ago, a survey by Sault Ste. Marie car dealers indicates.

Civil Aviation In Canada Grows

Ottawa.—The Department of National Defence has issued statistics showing a vigorous upturn in civil aviation activities in 1934 compared with the previous year and 1932. It pointed out no subsidies are paid air transport companies and said it could be claimed justly in Canada "civil aviation flies by itself."

The figures showed Canadian civil aircraft flew 75,571 hours last year, an increase of more than 20,000 hours over 1933 figures and almost 19,000 hours over 1932 flying. The planes flew 6,497,657 miles, carrying 185,396 passengers, 14,641,179 pounds of freight and 625,000 pounds of mail, bringing the air mail weight per capita for the year to a higher point than in any other country in the world.

The number of aircraft operators increased from 90 in 1933 to 125 in 1934, while the number of licensed aircraft rose from 345 to 368 but remained less than in 1932 when 445 were registered.

The Importance Of Screening

Ontario Safety League Issues Appeal

The danger to health caused by the common fly has led the Ontario Safety League to appeal to householders all over Ontario this Spring to keep flies out of their homes. There is only one way to do this properly—screen every door and window.

When screen doors and windows are on hand, they should be checked carefully, and, if damaged, the screen wire should be replaced. A defective screen is worse than useless as it gives a false feeling of security. It is a well known fact that the common fly is a carrier of disease germs.

FLEET MAN

IS ACQUITTED

The crown failed on April 24th to
 establish that Arthur Nickerson, of
 effect, had anything to do with the
 truction of 602 grape vines, the
 party of Harry Nickerson or J.
 an, last January. The accused was
 acquitted by Judge T. A. Hoies, who
 directed the trial in county criminal
 court, Hamilton.

The defence, which was handled by
 O. Binkley, was that the accused
 was not on the vineyard property
 the time the sabotage occurred, but
 engaged effecting repairs to his
 truck, which developed trouble in the
 line. Nickerson, with no knowl-
 edge of motor mechanics, was
 that it was a long time before he
 and the cause of the trouble, but,
 done, the actual repairs took but
 short time.

Evidence had been introduced by
 own Attorney U. W. Ballard, K.C.,
 rough a motor mechanic that to
 ser the pipe line would be not
 ager than 10 or 15 minutes by a lay-
 as, while an expert could do the
 b in five minutes.

The Week's News of
The Surrounding District

BEAMSVILLE

The measles epidemic played havoc
 with the attendance of pupils in the
 vocational school during the last
 month, the average attendance dropping
 to 29 in an enrollment of 43, so
 Director W. V. Norvick stated in his
 monthly report to the vocational com-
 mittee meeting Friday night. He re-
 ports the first and second forms as
 being hit hardest.

The wine tax announced last week
 by the liquor board commission did not
 come as a great surprise. In some
 circles it was anticipated for some
 little time. What effect it will have
 on grape prices is problematical at the
 moment, but it is thought that the
 growers will not suffer through the
 imposition, as the wineries are prac-
 tically pledged to last year's prices on
 blue and white grapes.

"After all," said a grower of grapes,
 "I'll bet my last nickel that if any
 urban municipality in this vicinity vet-
 eran on the establishment of a wine
 permit in its territory tomorrow, it
 would be overwhelmingly defeated,
 and still some of the very people who
 are intensive grape growers, and who
 are the biggest kickers in reference to
 the prices paid them for their grapes
 by the wineries, are the very ones that
 would knock the sale of wine in their
 own municipality."

On his fingers he summed up the
 various municipalities that had turned
 down the proposition the last year,
 mentioning North Grimsby, South
 Grimsby and Beamsville, the very
 centres, he said, of the grape-grow-
 ing industry. "Is it any wonder,
 then," he said, "that the wine com-
 mission is apathetic to the question
 when the people of the district them-
 selves are 75 per cent. against the
 whole wine industry and the sale of
 wine. These people better get wise
 to themselves if we want to get any-
 where," he said.

High and vocational school alumnae
 held their fourth yearly at-home in the
 Community hall Friday night, a
 large number of pupils and ex-pupils
 coming back for the occasion. The
 gold and green of the school was pre-
 dominant in the decorations. The
 committee in charge had every detail
 in ship-shape form, and the affair
 from every standpoint was a decided
 success.

Relatives and close friends, to the
 number of 50, were present Friday
 evening at "Chequers," when Mr. and
 Mrs. Charles Tallman were at home
 on the silver anniversary of their
 wedding day. These two popular citi-
 zens received many congratulations on
 this auspicious occasion, with the hope
 of their friends that they would be
 spared to celebrate another anniver-
 sary 25 years hence.

There have been no reports detri-
 mental to the forthcoming fruit crop
 as far as is known here, said George
 Dickson, chief horticulturist at the
 Vineland Experimental farm, in the
 absence of the director, E. F. Palmer,
 last week.

"Will there be a hundred per cent.
 crop this season?" he was asked.
 "If nothing happens in the inter-
 val," said Mr. Dickson, "the fruit crop
 in all varieties should be good."

A half dozen peach branches in a
 large vase of water on one of the
 desks in the central office bore evi-
 dence to the fact that there were
 plenty of buds in prime condition as
 the branches were covered with a pro-
 fusion of bloom.

For the first time in a number of
 years some half dozen O. A. C. stu-
 dents are taking a summer fruit
 course at the Vineland farm.

Alva Stirling, Clinton township,
 has been appointed an inspector in the
 county under the direction of the
 Agricultural Development Loan board.
 For the present Mr. Stirling states the
 appointment is a temporary one.

Provincial Traffic Officer Dudley H.
 Darby is upholding his past brilliant
 reputation as a revolver shot, coming
 third in a big test of aspirants at
 Ouelph on Wednesday, when he ac-
 cured 185 points out of a possible 200,
 being only six points behind the win-
 ner, Constable R. G. Pickrill, of the
 C. N. R. police. Winnipeg. Constable
 Darby has many cups and trophies at
 his home here attesting to his skill as
 a small arms marksman.

commit the village waterworks over
 methods of collecting, repairs in tax-
 A report from County Superinten-
 dent Frank Weil showed that by
 building a wall four feet higher on the
 reservoir it would increase the town's
 water by 1,200,000 gallons. The big-
 gest expense would be for labour,
 \$218. It was resolved to ask the de-
 partment of public welfare for ap-
 proval of the plan.

GRIMSBY CENTRE

The Hard-Time Card Party and
 The held by the Grimsby W.I. was a
 Dance success. The costumes were
 deep, and varied. Those winning
 many were: Ladies Hard-Time, Miss
 York; Men's, Mr. Roy Thomas;
 Ladies 1st for cards, Miss E. York;
 2nd, Mrs. Fred Black; Gents 1st, Mr.
 2nd, Jacob, 2nd, Donovan Hyatt.
 Lottery ticket was drawn by Mrs.
 Th. Duck. Judging for the ladies'
 1st-time were Mrs. M. Merritt of
 Hamilton and Mrs. Ted Duck and for
 the men were Mr. Hurst of Hamilton
 and Mr. Ross Beamer.

The next regular meeting of the W.I.
 will be held at Mrs. Arthur Seeley's
 home on May 9th. There will be the
 election of officers and the roll call
 will be the paying of yearly fees. It
 is hoped to see all the members as
 well as some new ones present.

Miss Doris Secor of Grimsby East
 spent Sunday evening at her home.
 Her friends will be pleased to learn
 that Mrs. E. Erick is recovering from
 her illness.

There are still a number of cases
 of measles in the school here.

Miss I. Hiltz of Grimsby is assisting
 Miss Dackwood, the local teacher, for
 a week.

Mr. and Mrs. George Marlow of
 Grimsby spent a day last week with
 Mr. and Mrs. Isaac Southward recall-
 ing their boyhood days in the neigh-
 bourhood.

THIRTY MOUNTAIN

(Too Late For Last Issue)

Mr. and Mrs. Robert Hurst and Mr.
 and Mrs. L. Hurst and children, called
 on Mrs. E. Taylor, Burlington on
 Sunday.

Mr. E. Gref of the Canadian Bank
 of Commerce, Hamilton, spent the
 weekend at his home here.

Miss Doris McCrea of Campden
 spent the weekend with Mr. and Mrs.
 H. Aston.

Mr. Woot of Toronto spent Sunday
 at home here.

Miss Hazel Kinkaid has obtained a
 position in Grimsby.

Mr. and Mrs. Peter Marlow and
 children spent Sunday with Mr. and
 Mrs. Wm. Aston.

Alex and Mrs. Jamieson of Welland,
 spent Good Friday with Mr. and Mrs.
 Wm. Kemp.

Miss Eleanor Miller of Welland is

SURVEY OF LIFE
OF KING GEORGE

(Continued from page 1)
 berland, flagship of the Channel
 Squadron, and was in command of a
 torpedo boat for naval manoeuvres.
 He commanded the gunboat, H.M.S.
 Thrush, of the North American and
 West Indian Station in 1900, and 1901
 saw him promoted to Commander in
 H.M.S. Melampus.

At this point his active career in the
 British Navy was ended by the sudden
 illness and death of the Duke of Char-
 lotte, which brought him into the di-
 rect line of succession.

The year he left the sea he was
 created Duke of York, Earl of Inver-
 ness and Baron Killarney, and on
 July 6th of the following year the na-
 tion rejoiced in his marriage to Prin-
 cess Victoria Mary of Teck. Their
 oldest son, the present Prince of
 Wales, was born at White Lodge,
 Richmond, on June 23rd, 1904. His
 Majesty's other sons are the Dukes of
 York, Gloucester and Kent.

The Prince's travels soon began, his
 wife now accompanying him. The
 Royal pair visited Ireland in 1900,
 and in 1901 set out on an Imperial
 tour, which had been arranged before
 Queen Victoria's death and now re-
 sponding her Easter holidays with her
 brother, Morton Miller.

Mr. and Mrs. Francis Lapham and
 children; Mr. E. Rusick and Miss R.
 Rusick of Buffalo and Mr. and Mrs. J.
 Christian of Tapscott, spent the
 weekend with Mr. and Mrs. J. Procy-
 shyn.

Mr. and Mrs. E. Hurst; Mr. and
 Mrs. L. Hurst and children spent Sun-
 day in Hamilton, visiting Mr. and Mrs.
 W. P. Millward.

Mr. F. Constable has secured a job
 at Caledonia.

Mr. and Mrs. Bruce Carr and Mrs.
 E. Miller of Hamilton, spent Sunday
 with Mr. and Mrs. Wm. Kemp.

Mr. and Mrs. Wm. Kemp motored to
 Welland on Monday, Eleanor Miller
 returning with them after spending a
 week's holiday with her brother Mor-
 ton.

The many friends of Mr. Robert
 Walker called on him on Thursday
 evening, it being his 72nd birthday.

The evening was spent in cards and
 dancing. Friends were there to the
 number of seventy from Niagara
 Falls, N. T., Foxville, Smithville,
 Grimsby, Beamsville and surrounding
 neighbours.

Mrs. Seidie and Phyllis returned
 home from Toronto on Saturday after
 a week's holiday.

Mr. and Mrs. Robert Stevens, Buf-
 falo, spent Sunday with Mr. and Mrs.
 Harold Aston.

colled the whitehearted reaction of
 King Edward VII. They sailed in the
 Ophir in March, 1901, reaching Mel-
 bourne in May and opening the first
 Parliament of the Australian Com-
 monwealth. From Australia they
 went to New Zealand, South Africa
 and Canada.

On his return home, Prince George,
 now Prince of Wales, on his father's
 accession to the Throne, made his
 memorable "Wake up, England!"
 speech at the Guildhall, in which he re-
 ferred to the impression which com-
 manded generally to prevail overseas "that
 the old country must wake up if she
 intends to maintain her old position of
 pre-eminence in her colonial trade."

During his father's reign he won the
 reputation of a hardworking and con-
 scientious prince, deeply concerned for
 the Empire's prestige and the wel-
 fare of its peoples. This reputation
 served him well when, in 1910, he suc-
 ceeded to the Throne, for King
 Edward, in his brief but splendid
 reign, had endeared himself to all
 classes and not a standard by no
 means easy for his successor to at-
 tain.

King George's coronation took place
 on June 22nd, 1911, and was quickly
 followed by State visits to Ireland,
 Wales and Scotland. There were ex-
 tensive tours also of industrial Eng-
 land and Wales. Later in the year
 came the glittering visit to India and
 the Durbar at the ancient capital, of
 Delhi.

During the short period of the reign
 that preceded the Great War, the King
 was faced with a number of political
 and industrial problems that enabled
 him to display the best qualities of a
 constitutional sovereign, and when
 war broke out he was at once re-
 cognized as the nation's rallying-point
 in its hour of supreme testing.

Unnumberable tasks were performed
 by the Royal Family that belonged
 strictly to the category of "war
 work," and there can be no question
 that their efforts played an essential
 part in maintaining the national cour-
 age and will to win. The young
 Prince of Wales served in France, the
 Duke of York took part in the battle
 of Jutland, and the King paid several
 visits to the French and Belgian
 fronts.

No ruler was ever more warmly ac-
 claimed in a foreign capital than King
 George when, after the Armistice, he
 visited Paris and the battlefields. In
 London, too, there was a splendid
 sequence of triumphal progresses.
 The year closed with a banquet at
 Buckingham Palace in honour of Presi-
 dent Wilson, who, with Mrs. Wilson,
 was Their Majesties' guest.

Not until 1921 did the King again
 leave England. In June of that year
 he inaugurated the new Parliament of
 Northern Ireland, appealing to Irish-
 men "to pause and stretch out the

hand of forbearance, to forgive and
 forget and make for the land they lov-
 ed a new era of peace, contentment
 and goodwill."

In the following year a State visit
 was made to Belgium and a pilgrim-
 age to the cemeteries of Belgium and
 France. The King's last journey
 abroad was to Italy, in 1923, in the
 course of which he visited the Pope.

The British Empire Exhibition at
 Wembley in 1904 and 1905 was an af-
 fair in which the King took a thor-
 ough-going interest, and the Wembley
 Stadium was the scene of a stirring
 spectacle on May 25th, 1924, when he
 joined in a great Service of Empire
 Thanksgiving.

The close of 1928, when it was
 learned that the King was seriously
 ill, was an anxious period for the na-
 tion. The anxiety persisted for two
 months and clearly demonstrated the
 depth of affection in which His
 Majesty is held by all classes and sec-
 tions of the community.

In his private life the King has en-
 deared himself to the people at large
 by his simple tastes, domestic happi-
 ness and all-round good sportsman-
 ship. Yachting is a favourite out-
 door recreation, and he is held to be
 one of the best shots in the country.
 Of his indoor amusements the most
 engrossing is philately, his stamp col-
 lection being the most complete in ex-
 istence.

The King is no mere figurehead. He
 is a constitutional monarch, it is true,
 governing through his ministers, but
 within that definition his powers are
 very considerable. The King of Eng-
 land's constitutional privileges have
 been summarized as "the right to be
 consulted, the right to encourage, and
 the right to warn."

King George is a skilled observer of
 foreign politics. In home affairs he
 is above party politics and acts on the
 advice of his ministers, but his in-
 fluence is great and in times of crisis
 is exercised, the most recent occasion
 being in 1931 when, to quote Sir J. A.
 R. Marriott in "Modern England,"
 "the nation learnt with a sense of
 gratitude and relief that the King had
 interrupted his holiday, hardly begun
 in the Scottish Highlands, had return-
 ed to London and had personally tak-
 en control of a dangerous and critical
 situation."

The fact is, ministers come and go,
 whereas the King remains, and, as
 Sir Robert Peel declared, "after a
 reign of ten years ought to know
 much more of the working of the
 machine than any other man in the
 country."

The twenty-fifth anniversary of his
 accession on May 6th, 1935, will be the
 occasion for heartfelt rejoicing and
 will usher in a long series of festivi-
 ties throughout the British Isles and
 the British Dominions, in honour of a
 wise counsellor, a shrewd statesman
 and a great king.

AGAIN IN 1935

MORE PEOPLE RIDE ON
GOODYEAR TIRES THAN
ON ANY OTHER KIND

In fact, it's truer this year than ever before.
 The inevitable popularity of the new G-3 tire has
 put Goodyear still further into the lead. Let us
 show you this extraordinary tire now proven by
 over a BILLION miles on Canadian cars. Note
 that the prices are no greater than for standard
 tires.

Size 4.40 x 21	10.00	Size 5.00 x 19	13.25
Size 4.50 x 21	11.00	Size 5.00 x 20	13.50
Size 4.75 x 19	12.25	Size 5.25 x 15	14.75

Other sizes equally low-priced
